

# BCX 1010RL

## Rear Load

Standard Change-Makers' new version of our Bill-&-Coin Exchanger series is now available with the Fujitsu™ Single Note dispenser. The new BCX1010RL will provide more convenience for your customers in both attended and unattended locations. It features our exclusive Modular Series Smart Hopper technology with MDB serial interface that allows for easy upgrades and additional plug-&-play optional features. The BCX1010RL accepts higher denomination bills and dispenses a combination of lower denomination bills and coins or tokens. This allows customers to "break" their tens and twenties into either \$5 or \$1 bills and quarters. They can use that change to add value to cards or use in your laundry, carwash, vending, amusement, parking or other coin-op businesses. The single note Fujitsu™ dispenser holds from 750 (used/recycled) up to 1,000 (new/ATM-quality) bills inside Standard's solid-welded, heavy-duty steel cabinet - so your investment is secure. In addition, the high capacity steel coin hopper holds up to 6,200 quarters (or tokens).

- Rear Load configuration for Bill & Coin Exchange
- Pyramid™ APEX Bill Validator with 500 bill stacker (other acceptors available)
- Fujitsu™ Single Note Bill Dispenser - holds from 750 (used) up to 1,000 (new) bills
- Standard Steel, High Capacity Modular Smart Coin Hopper - holds 6,200 Qtrs. (\$1,550)

Height	Width	Depth	Shipping Weight	Changes
36	18	18	210 lbs.	\$1 / \$5 / \$10 / \$20
Number of Hoppers/Capacity		Bill Capacity	Stacker Capacity	
6,200 Qtrs/\$1,550		1	500 bills
