

BX1010RL

Rear Load

Standard Change-Makers' new version of our Bill-to-Bill Exchanger series is now available with the Fujitsu™ Single Note dispenser. The new BX1010RL will provide more convenience for your customers in both attended and unattended locations. It features our exclusive Modular Series Smart Hopper technology with MDB serial interface that allows for easy upgrades and additional plug-&-play optional features.

The BX1010RL accepts higher denomination bills and dispenses lower denomination bills. This allows customers to "break" their tens and twenties into either \$5 or \$1 bills. They can use that change to add value to cards or use in your laundry, carwash, vending, amusement, parking or other coin-op businesses.

The single note Fujitsu™ dispenser holds from 750 (used/recycled) up to 1,000 (new/ATM-quality) bills inside Standard's solid-welded, heavy-duty steel cabinet - so your investment is secure.

- Rear Load configuration for Bill Exchange
- Pyramid™ APEX Bill Validator with 500 bill stacker (other acceptors available)
- Fujitsu™ Single Note Bill Dispenser - holds from 750 (used) up to 1,000 (new) bills
- Heavy gauge steel cabinets with solid welded seams & stainless steel

Height	Width	Depth	Shipping Weight	Changes
27.875	16.875	18	125 lbs.	\$5 / \$10 / \$20
Number of Hoppers/Capacity		Bill Capacity	Stacker Capacity
