

BX1020RL

Rear Load

Standard Change-Makers' new version of our Bill-to-Bill Exchanger series is now available with the Fujitsu™ Dual Note bill dispenser. The new BX1020RL will provide more convenience for your customers in both attended and unattended locations. It features our exclusive Modular Series Smart Hopper technology with MDB serial interface that allows for easy upgrades and additional plug-&-play optional features.

The BX1020RL accepts higher denomination bills and dispenses lower denominations. This allows customers to "break" their tens and twenties into either \$5 or \$1 bills. They can use the lower denomination bills to add value to cards or get additional change to use in your laundry, carwash, vending, amusement, parking or other card/coin-op businesses.

The single note Fujitsu™ dispenser holds from 750 (used/recycled) up to 1,000 (new/ATM-quality) bills inside Standard's solid-welded, heavy-duty steel cabinet - so your investment is secure.

The BX1020RL Changers feature:

- Rear Load configuration for Bill Exchange
- Pyramid™ APEX Bill Validator with 500 bill stacker (other acceptors available)
- Fujitsu™ Dual Note Bill Dispenser holds from 750 (used) up to 1,000 (new) bills

Height	Width	Depth	Shipping Weight	Changes
27.875	16.875	18	125 lbs.	\$5 / \$10 / \$20
Number of Hoppers/Capacity		Bill Capacity	Stacker Capacity	
750 - 1,000 bills		1	500 bills
